I have created an account for each of you in the development and production **AccessControl** databases. You can log on using Microsoft SQL Server Management Studio using Windows Authentication - see below.

You can download MSSMS here:

<https://docs.microsoft.com/en-us/sql/ssms/download-sql-server-management-studio-ssms?view=sql-server-2017>

Michael = DEACNET\dewittme

Philip = DEACNET\handwegg

The development database is on [loma.deacnet.wfu.edu](http://loma.deacnet.wfu.edu)

The production database is on [longmont.deacnet.wfu.edu](http://longmont.deacnet.wfu.edu)

Let me know if you have any questions.

Thanks!

Lisa

Thank you Lisa! This is fantastic!

Best regards,

Mike
